The HcEM-Mastery credential recognizes an individual who has successfully completed the requirements established by the Association of Healthcare Emergency Preparedness Professionals (AHEPP) for this certification. This digital badge serves as a public representation of the credential holder's HcEM-Mastery certification status and may be used to demonstrate achievement of the applicable AHEPP certification requirements. If necessary, you can provide the public URL to any professional contacts or leaders who require it.

Issuer Statement:
The Association of Healthcare Emergency Preparedness Professionals (AHEPP) issues the HcEM-Mastery credential to individuals who have successfully completed the requirements established for the certification. AHEPP maintains the certification record associated with this credential. The digital badge provides a means to publicly communicate and verify the individual's certification status. Through its certification activities, AHEPP supports healthcare emergency preparedness professionals and its mission of Moving Preparedness Forward.
